SLS Disruptions and updates on FHBL

Dear Parents,

As all schools embark on Full Home-based Learning (FHBL) from today, we would like to thank you for supporting your children in their FHBL and for your understanding when the MOE Student Learning Space (SLS) platform was experiencing some technical difficulties in the morning.

To better pre-empt for any future possible disruptions to the SLS platform, the **school will be sharing a list of Learning Websites that your child can access while waiting for any SLS issues to be resolved**. You can find the Learning Websites by navigating to the School Notifications section (Notification for 19 May 2021), under the Useful Information tab of the school website. You can refer to the URL <https://qihuapri.moe.edu.sg/school-life/for-parents/>. The Learning Websites can be used by your child to plan their learning time-table based on subjects planned for the day.

Please also note that if your child is unable to access the Live Lessons links due to SLS issues, subject teachers may inform your child of the Google Meet / Zoom link using Whatsapp / ClassDojo. The **recorded Live Lesson videos will also be posted on SLS within the day** so that your child can learn at his/her own time. **Please also note that the Live Lesson links will be available at least 15 minutes before Live Lesson starts.**

In view of the possible SLS disruptions, **all SLS assignments and resources will be accessible till 25 Jun 5pm** so as to give students ample time to complete the learning tasks. Students can also revisit and revise these resources during the June holidays.

On a side note, we seek the support of parents to remind their child to **go through the learning packages before attempting the quizzes / tasks**, as these learning packages are meant to scaffold their learning.

Your child would also have brought back some hardcopy worksheets which may be used as part of the SLS learning packages. We seek your assistance to **get your child to organise these materials** by subjects and have them on hand prior to the SLS lessons so that they can refer to them quickly and easily if these materials are used during the SLS lessons.

Lastly, to better help manage the SLS system load, we would like to **recommend students log in at different timings to start on their assignments**. For ease of reference, we have also included the Live Lesson schedule (unchanged from previous PG message). Please refer to **Annex A**.
